Notes to editors:

ESV is a broadly based investment business currently involved in farming operations, cargo and port facilities for the export of grains and vegetable oils from the Ukraine and vegetable oil production in Mozambique with specific emphasis on supplying biofuel raw supplies to European biodiesel refineries.

In Mozambique, it leases and manages Jatropha plantations providing vegetable oil for biodiesel production.

It has an agri-business in Ukraine, involved primarily in growing cereals and oil seed rape, together with a port management operation at the Kherson terminal, one of the principal logistic centres on the Black Sea.

In the Netherlands it is engaged with partners in the Terneuzen Tank Terminal project to obtain necessary permits and to commence the development of a raw vegetable oil and oilseed tank terminal.

ESV Group has been quoted on PLUS since 21 August 2006 (symbol ESV).
